K'NEX BUILDING BASICS

Start Building

To begin your model, find the **1** and follow the numbers. Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connections points have arrows.

Faded colors show you this section is already built.

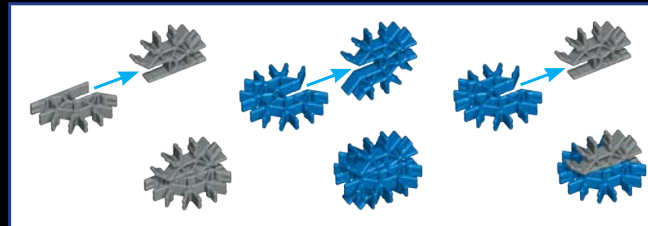

Spacers

There are places in your model where you need to use spacers. Be sure to use the correct number of spacers shown in the instructions.

Connectors

You can slide these special connectors together. Push tightly until you hear a "click". Pay close attention to the instructions and position them horizontally or vertically exactly as they are shown.

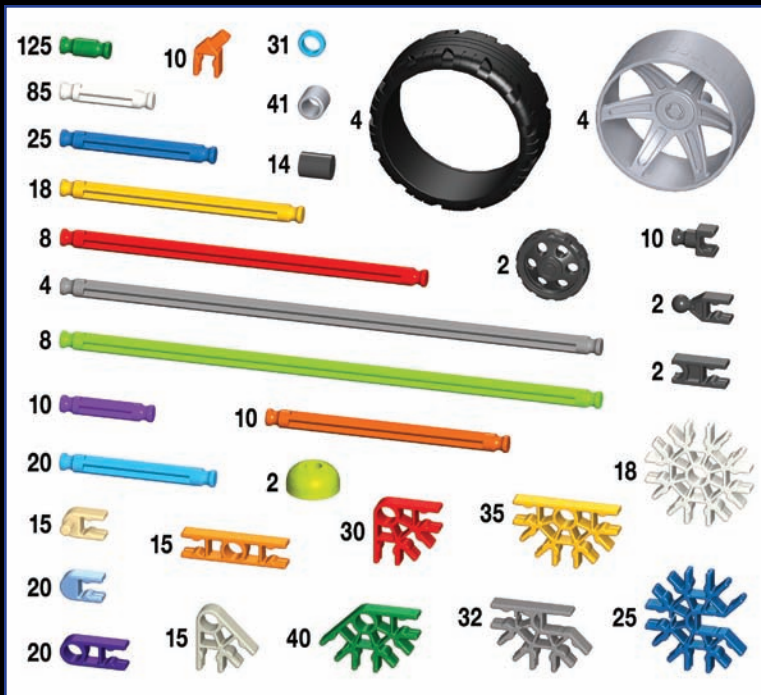

Flexi-rods

A Flexi-rod is a rod that you bend to make curves. It will be easier to attach to your model if you bend it back and forth first.

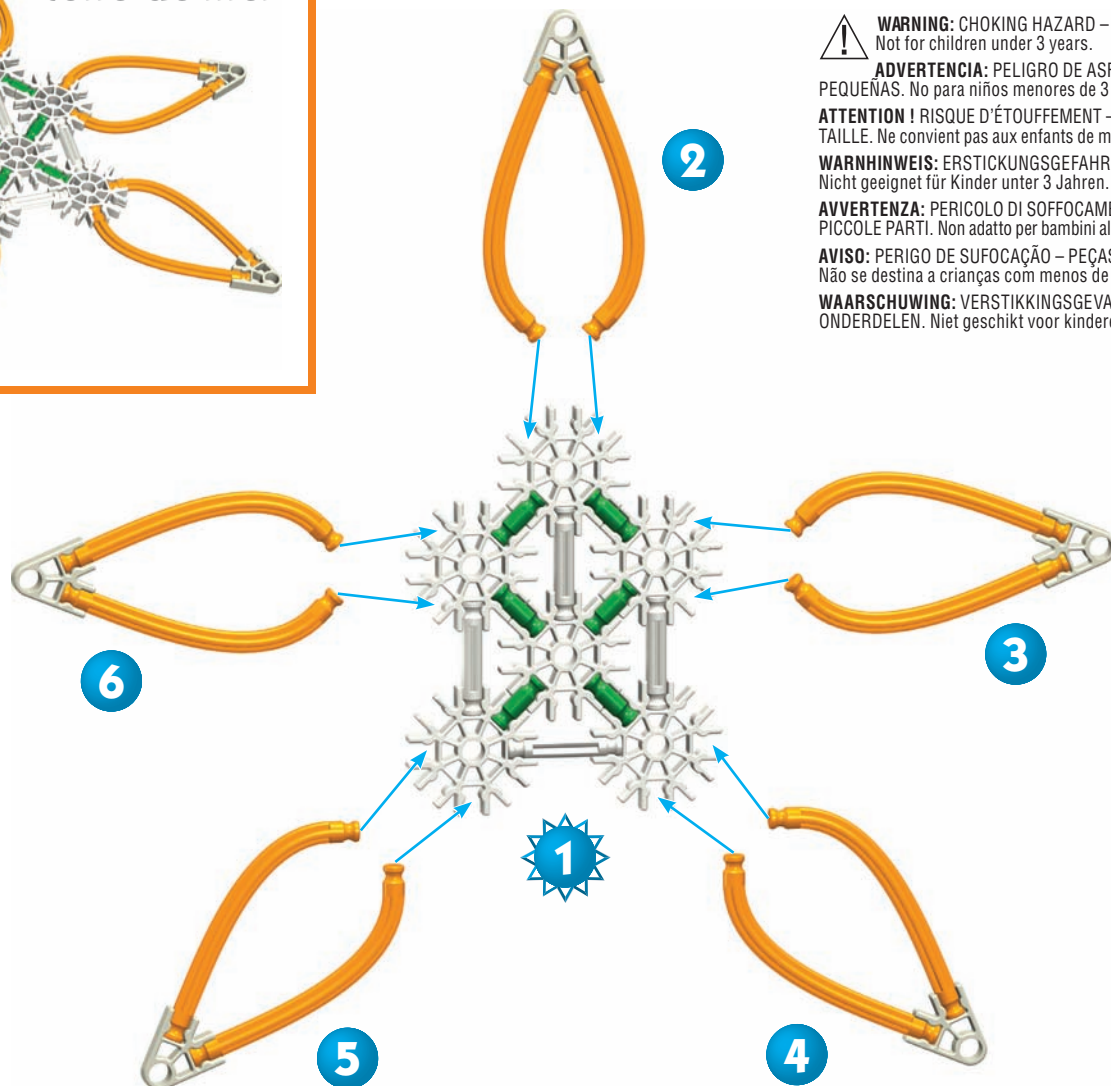

Parts List

Before you start building, be sure to compare the parts in your set with the parts list here. If anything is missing, call or write to us using the information on the back cover. We are here to help you!

Esenciales de construcción K'NEX

Para comenzar a construir

Para comenzar el modelo, encuentre el número **1** del paso y siga los números. Cada pieza tiene su propia forma y color. Observe las imágenes, encuentre las piezas que sean iguales a las que se muestran y conéctelas. Colocar el modelo en la misma dirección que se encuentra en las instrucciones le facilitará la construcción. Las flechas muestran en dónde se conectan las piezas, pero no todos los puntos de conexión tienen flechas. Las partes de color tenue son las que ya armó.

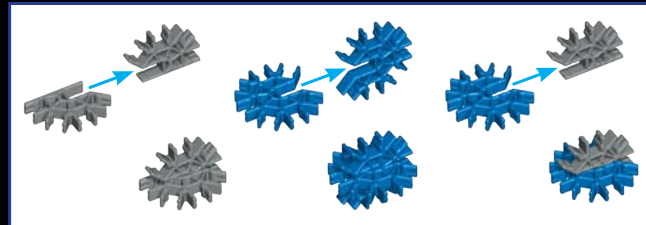

Separadores

Hay sitios en el modelo en los que necesita utilizar separadores. Asegúrese de usar el número correcto de separadores que se muestra en las instrucciones.

Conectores

Puede unir estos conectores especiales deslizándolos. Presione con fuerza hasta que oiga un "clic". Preste especial atención a las instrucciones y colóquelos de forma horizontal o vertical, exactamente como se muestra.

Varillas flexibles

Una Varilla Flexible es una Varilla que se puede doblar para formar curvas. Serán más fáciles de conectar a tu modelo si primero las doblas hacia atrás y hacia adelante.

Lista de piezas

Antes de comenzar a construir, compare las piezas de su juego con las que se enumeran aquí. Si falta algo, llámenos o escríbanos utilizando la información que se encuentra en el reverso. ¡Estamos aquí para ayudarle!

Grundlegende Bauanleitungen für K'NEX

Los geht's mit dem Bauen

Um mit dem Bauen deines Modells zu beginnen, suche die Nummer 1 und folge den laufenden Nummern. Jedes Teil hat seine eigene Form und Farbe. Schau dir einfach die Abbildungen an, such die Teile in deinem Bausatz, die so aussehen wie das, was du auf der Abbildung siehst und steck sie ineinander. Versuche, dein Modell beim Zusammenbauen so zu orientieren, dass es in die gleiche Richtung weist, wie es in den Anleitungen beschrieben und gezeigt wird. Blasse Farben weisen darauf hin, dass dieser Streckenabschnitt bereits zusammengebaut ist.

Verbindungsstücke

blaue und silberfarbene Verbindungsstücke haben besonders lange Schlitzte. Wie du auf der Abbildung sehen kannst, lassen sie sich ineinander schieben. Achte beim Aneinanderfügen dieser Teile darauf, dass du ein Klickgeräusch hörst. Erst dann sind die Teile fest miteinander verbunden.

Abstandsstücke

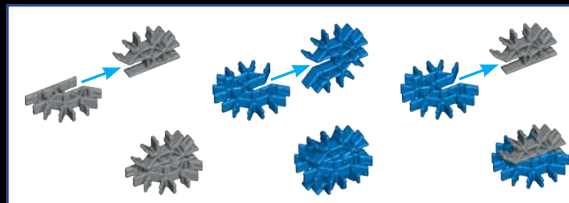

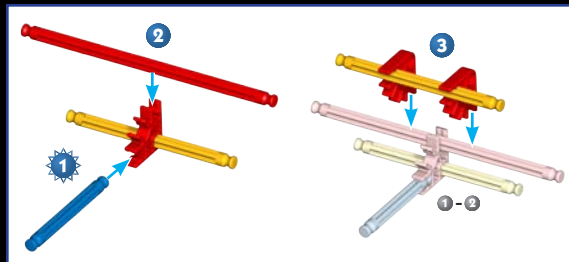

An manchen Stellen in deinem Modell musst du Abstandsstücke einbauen. Achte darauf, die richtige Farbe und Anzahl von Abstandsstücken wie in der Anleitung gezeigt zu verwenden.

Flexi-Laschen

Eine Flexi-Lasche ist eine Lasche, die du zu einer Kurve zurechtbiegen kannst. Sie lassen sich leichter an dein Modell anschließen, wenn du sie mehrmals hin- und herbiegst, um sie flexibler zu machen, bevor du sie das erste Mal benutzt.

Teileliste

Bevor du mit dem Bauen anfängst, solltest du prüfen ob die Teile in deinem Bausatz mit denen auf dieser Teileliste übereinstimmen. Falls etwas fehlt, rufe uns an oder schreibe uns (siehe Rückseite). Wir sind für dich da!

Istruzioni di base per costruire con K'NEX

Comincia a costruire

Per iniziare il modello, cerca il numero 1 e segui i numeri. Ogni pezzo ha una sua forma e un suo colore. Guarda la figura, trova i pezzi corrispondenti nel set e mettili insieme. Cerca di tenere il modello nella stessa direzione della figura e in tal modo sarà più semplice attaccare i pezzi nei posti giusti. I colori spenti ti dicono che questa sezione è già stata costruita. Dovrai collegare la nuova sezione al punto indicato dalla punta della freccia.

Connettori

È molto importante posizionare i connettori blu e argento in una specifica direzione. Presta molta attenzione alle istruzioni e posiziona i connettori orizzontalmente o verticalmente proprio come illustrato. Spingi con forza fino ad udire un clic.

Spaziatori

Ci sono punti nel tuo modello a cui dovrai aggiungere spaziatori blu e argento. Accertati di contarli attentamente.

Flexi-stangen

Een Flexi-stangen is een stang die kan gebogen worden om bochten of curves te maken. Ze maken zich gemakkelijker vast aan je model wanneer je ze eerst een paar keer heen en weer buigt.

Elenco delle parti

Prima di cominciare a costruire, accertati di confrontare le parti che sono nel tuo set con l'elenco delle parti qui. Se ne manca una chiamaci o scrivici usando le informazioni che sono nella retrocopertina. Noi siamo qui per aiutarti!

As setas mostram onde as peças se conectam, mas nem todos os pontos de conexão têm setas. As partes com cores desbotadas são as que você já montou.

Você pode fazer com que estes conectores se deslizem e se conectem. Empurre até ouvir um "clique". Preste atenção às instruções e posicione-os horizontal ou verticalmente exatamente conforme a ilustração.

Separadores

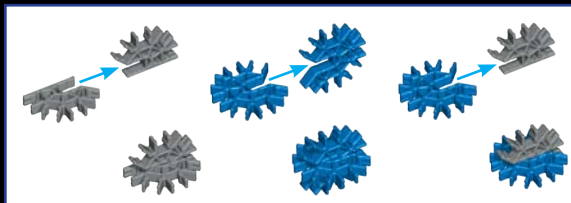

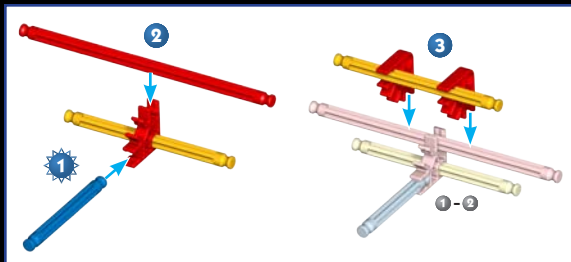

Há lugares no modelo onde você precisará usar separadores. Use o número de espaçadores corretos exibidos nas instruções.

Gelieve het nieuwe deel vast te koppelen op de plaats aangeduid door de pijlen.

Koppelstukken

Er zijn blauwe en zilveren koppelstukken met speciale lange gleuven. Ze schuiven in mekaar zoals je kunt zien op de afbeeldingen. Duw deze onderdelen in mekaar tot je een "klik" hoort.
