

MECH WARRIOR

“Surats!” Caden cursed. Ganging up on him before he'd even been able to issue a call for help. Of course they refused to fight honorably, one on one, he thought. He was a Bloodnamed warrior, a product of dozens of generations of genetic manipulation that had produced the ultimate MechWarrior. They couldn't best him singly. Suddenly the Firefly he'd struck before came into the open and lashed at his Mod Dog with medium lasers. As almost a ton of armor blew off his Mech, the neurohelmet he wore kept the machine upright, using his own sense of balance. He pulled on his joystick, locked the Firefly in his targeting reticule and pushed the throttle forward. An instant before his fingers pulled on the trigger, the Firefly fired its jump-jets and leapt into the air, spoiling his shot. Slamming his fist into the command chair, warning alarms suddenly filled the cockpit. He turned just in time to see a full barrage from the Uziel flashing towards him. As his Mod Dog reeked under the assault, Caden vowed he'd finish them both for this...

“Surats!” jure Caden. Ils s'attaquaient à lui à plusieurs avant même qu'il ait pu appeler à l'aide. Ils refusaient bien sûr de se battre de manière honorable, un contre un, pensa-t-il. Il était un guerrier Bloodnamed, le produit de douzaines de générations de manipulation génétique qui avaient fini par produire le super MechWarrior. Séparément, ils ne pouvaient pas le battre. Tout à coup, le Firefly qu'il avait touché auparavant apparut et se rua sur son Mod Dog avec des lasers de portée moyenne. Alors qu'une tonne presque de cuirasse se détachait de son Mech, le neurohelmet qu'il portait lui permettait de maintenir l'engin tout droit, en lui faisant utiliser son propre sens de l'équilibre. Il tira sur son manche, verrouilla le Firefly en position de tir et accéléra. Au moment où ses doigts appuyaient sur la détente, le Firefly activa ses jump-jets et s'éleva, lui faisant rater son tir. Frappant violemment de ses poings le fauteuil de commande, le cockpit fut soudain rempli de sirènes d'alarme. Il se retourna juste à temps pour voir une attaque venant de l'Uziel se dirigeant vers lui. Alors que son Mod Dog tremblait sous l'assaut, Caden se jurait qu'ils allaient payer pour ça...

“Surats,” maldijo Caden. Lo habían atacado antes de que siquiera le fuera posible tratar de llamar por ayuda. Por supuesto, ellos rechazan pelear honorablemente, mano a mano, él pensó. Él era guerrero Bloodnamed, el producto de manipulaciones genéticas en docenas de generaciones que terminaron dando como producto final al óptimo MechWarrior. No podrían vencerlo luchando uno a uno. De pronto el Firefly que él había golpeado antes con sus misiles, apareció en el abierto y azotó su Mod Dog con láseres medianos. Mientras casi una tonelada de la armadura voló de su Mech, el yelmo tipo neurohelmet que llevaba mantuvo la máquina en posición, usando su propio sentido de equilibrio. Él tiró la palanca, se aseguró que sus tiros darían de lleno contra el Firefly y empujó el acelerador hacia adelante. Un momento antes de que sus dedos apretaran el gatillo, el Firefly puso en marcha sus motores de reacción y saltó en el aire, malogrando su tiro. Caden golpeó con su puño en la silla de comando, mientras alarmas señalando peligro de súbito llenaron la cabina. Él giró justo a tiempo para ver un bombardeo total lanzado desde el Uziel, viniendo hacia él con una explosión de destello. Mientras su Mod Dog se balanceaba bajo la fuerza del asalto, Caden juró que él terminaría con los dos por esto...

Each K'NEX piece has its own color and shape; match it to the pieces in the picture instructions. Put the pieces together exactly as the pictures show. Be sure to put the Rods in the correct slots of Connectors, so you have proper angles in your finished model.

Faded colors indicate sections previously built; the connecting points will be in full color.

Les couleurs plus claires indiquent les sections déjà construites. Les points de jonction sont indiqués en couleurs vives.

Los colores apagados indican secciones que ya han sido montadas anteriormente. Los puntos de conexión se indican con colores vivos.

Push in missile until you hear a "click." Don't leave your missile in a loaded position for too long. If you do, the missile won't shoot as far.

CAUTION: Do not launch in the direction of people, animals, or walls; you could cause injury or damage. Never attempt to launch any projectiles other than K'NEX missiles.

Poussez les pièces ensemble jusqu'à ce que tu entendes un "clic". Ne laisse pas ton missile chargé trop longtemps. Si tu le fais, il ne tirera pas aussi loin.

ATTENTION: Ne pas lancer en direction de personnes, d'animaux ou de murs au risque de causer des blessures et des dommages. N'essayez de lancer des projectiles autres que des missiles K'NEX.

Conecta estas piezas empujándolas hasta que oigas "clic". No dejes el misil en la posición de cargado por largo tiempo. Si haces eso, el misil no va a disparar tan lejos.

PRECAUCIÓN: No lanzar el vehículo en dirección a personas, animales o paredes, pues ello podría provocar lesiones o daños. Nunca intente lanzar otros proyectiles que no sean los misiles de K'NEX.
