**⚠ AVERTISSEMENT:**

DANGER D'ÉTOUFFEMENT - Pièces de petite taille.  
Ne pas donner aux enfants de moins de 3ans.

# K'NEX

## MIKEY'S SWING-ARM BIKE™

Build your own chopper, just like the boys from OCC! Mikey's Swing-Arm Bike™ features a K'NEX frame to build and customize with a single-sided swing arm, a big engine with exposed belt-drive and other custom parts. Then fire it up with engine revving sounds!

Assemble ta propre moto, exactement comme les gars de OCC ! Mikey's Swing-Arm Bike™ a un châssis K'NEX à construire et à personnaliser avec un bras amortisseur sur un côté, un gros moteur qui expose sa transmission à courroies et d'autres pièces personnalisées. Fais-la ensuite démarrer avec des vrombissements d'enfer !

Mikey's Swing-Arm Bike™ features a unique single-sided swing arm that connects the rear wheel to the bike's frame on one side only. In addition, an exposed belt-drive gives this bike an ultra-aggressive style!

Mikey's Swing-Arm Bike™ est dotée d'un bras amortisseur unique qui se trouve sur un côté et raccorde la roue arrière au châssis de la moto, sur un côté uniquement. De plus, une transmission à courroies exposée donne un look super agressif à cette machine !

# K'NEX BUILDING BASICS

“Hi! I’m your K’NEX Building Buddy. When you see me in the instructions, you’ll want to pay close attention to the details being pointed out.”

## Ready, Set, Build

To begin your model, find the **1** and follow the numbers. Each piece has its own shape and color. Just look at the picture, find the pieces in your set that match what you see, and snap them together. Try to hold your model in the same direction as in the picture so you’ll attach your pieces to the right place.

## Movin' On

The faded colors tell you this section is already built. You’ll want to connect the new section to the place where the arrows are pointing. These pieces will be in full color.

## Cross-snap

When a Connector snaps on across a Rod, it is referred to as a “cross-snap”. Cross-snaps sometimes require a strong push and you might want to ask an adult for help.

## BUILDING TIPS:

- Try to face your model in the same direction as shown in the instructions.
- Some steps include pieces that require a strong “push” to snap together. You might want to ask an adult for help.

## FCC Statements:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation. This model is tested to comply with FCC standards - FOR HOME OR OFFICE USE.

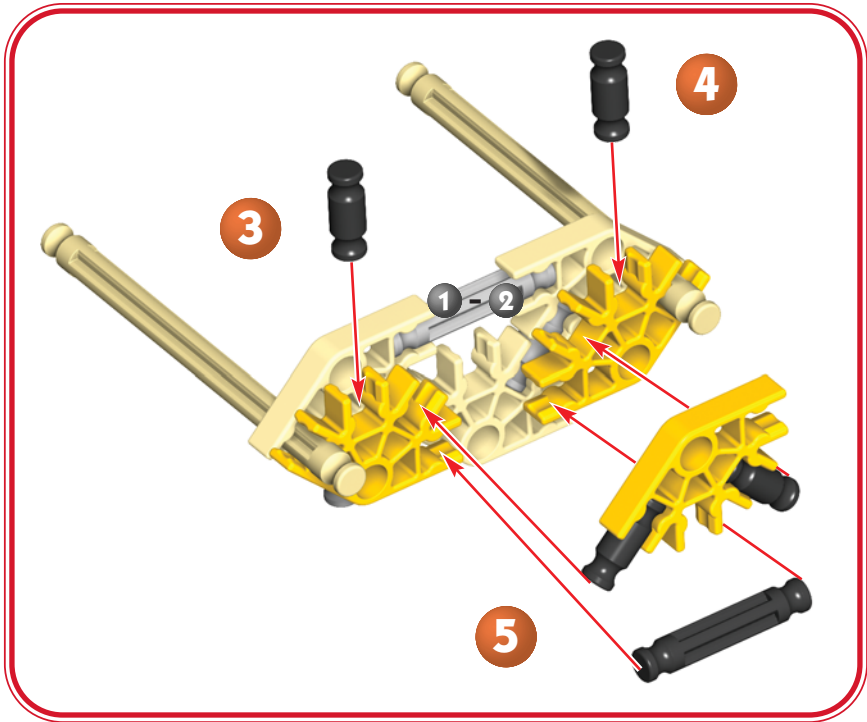

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Consult the dealer or an experienced radio/TV technician.

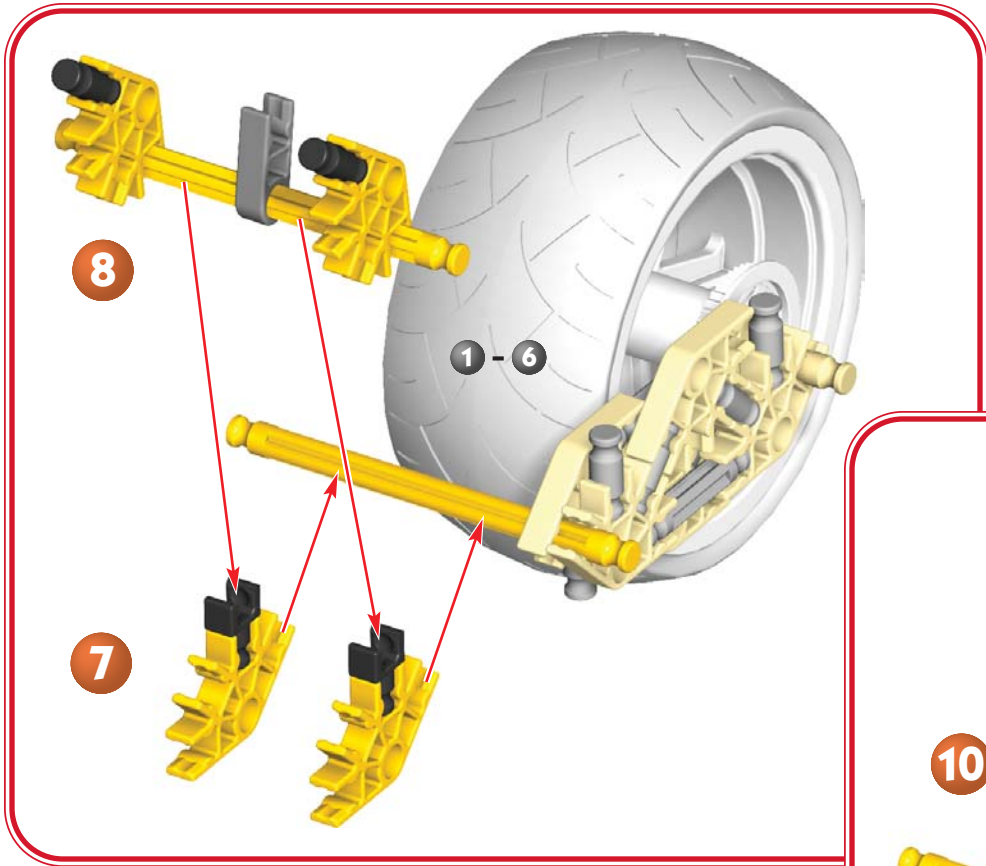

This Class B digital apparatus complies with Canadian ICES-003.
