

K'NEX

If you can imagine it, you can build it!

SPACE SHUTTLE INSTRUCTIONS

Congratulations!

Now that you've finished building this K'NEX model, you're ready for more construction fun with other exciting K'NEX designs.

The parts from your K'NEX building sets can all be combined to make lots of exciting models.

Start building your K'NEX collection today!

8:30 AM to 5:00 PM Eastern Time

©1994 Connector Set Toy Company
Hatfield, PA 19440-0700

K'NEX is a registered trademark of Connector Set Toy Company. Manufactured under U.S. Patents 5,061,219, 5,137,486, 5,199,919 and 5,238,438. Other U.S. and foreign patents pending. Made in U.S.A.

Conforms to the Requirements of ASTM Standard Consumer Safety Specification on Toy Safety, F963-92.

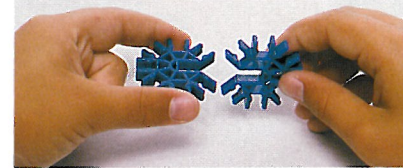

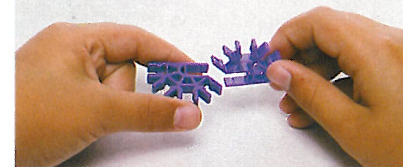

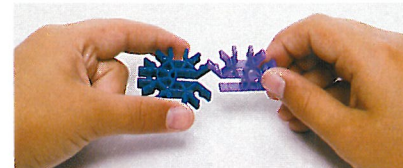

CAUTION: A MESSAGE ABOUT SAFETY FOR YOUR CHILD - K'NEX has small parts that pose a choke hazard and are unsafe for use by children under 3 years of age.

Welcome to the exciting world of K'NEX!

You're going to love building with K'NEX. It's not like any other construction set you've seen before.

All K'NEX parts are color-coded. To build, you just match the color and shape you see in the picture instructions to the color and shape of the parts in your set. Snap the pieces together, and they'll stay together until you're ready to take them apart.

To get the feel of building with K'NEX, take any Connector and any Rod. Snap them together in the two ways shown in these pictures. No matter what color Rod and Connector you combine, these are the two basic ways to make connections with K'NEX.

Some sets have special blue and purple Connectors. These can be joined without a Rod in between. These Connectors have special long slots that let you slip one directly into the other, as you see in the pictures.

Making Tires is easy, too. Just slip the gray Hub Cap inside the black rubber Tire.

There's no "right" or "wrong" way to build with K'NEX. Start anywhere you like, and match the colors in the picture directions to the colors of your parts. And when you've finished this model, you can take it apart and make up your own designs.

Start enjoying all the super K'NEX models and building sets today. Remember...

If you can imagine it, you can build it with K'NEX.
